dexam

at the heart of your kitchen

Introducing Woodland, our enchanting wildlife inspired range for autumn featuring tableware, wood-ware, ceramics and textiles.

Almost two thirds of UK species have declined in the past 50 years and one in ten faces the risk of extinction. PTES is an international conservation charity, working to protect animals and their habitats. They're passionate about protecting animals facing extinction in vulnerable habitats but also know that passion isn't enough: successful conservation is based on sound scientific evidence.

We have partnered with them meaning that when you buy selected products from this range, 2% of the retail price is donated to People's Trust for Endangered Species.
